Bill of Rights and Responsibilities

Physician and Patient/Family Bill of Rights and Responsibilities

You and Your Child have the Right to:

- *Expect privacy and respect while you receive your health care.*
- *Receive health care that is based on American Academy of Pediatrics standards and guidelines.*
- *Expect timely and reasonable answers to your questions.*
- *Be seen within reasonable time.*
- *Know what services are available to help you.*
- *Be given care that is sensitive to one's developmental needs.*
- *Have access to your medical records.*
- *Be told of medical choices for care or treatment.*
- *Receive access to medical treatment no matter your race, sex, creed, sexual orientation, nationality, religion, disability or source of payment.*
- *Take part in decision about the plan of your health care.*
- *Continuity and secure transition between health care settings.*

You and Your Child are responsible for:

- *Giving true and complete information about your child's present and past health and family history.*
- *Telling your pediatrician of any change in your child's health.*
- *Providing information to your pediatrician about any care your child received outside of our practice.*
- *Letting us know of any concerns.*
- *Telling your pediatrician if you do not understand your plan of care and what is expected of you.*
